Reporting Student Absences from Bauple State School

For a variety of different reasons (illness, medical, family and cultural commitments), occasionally students will need to be absent for short time frames from the school environment.

It is important for all community members to acknowledge the importance of all students attending an educational environment to engage in learning opportunities and to actively participate in structured activities in order to receive a high quality education.

All students at Bauple State School are strongly encouraged to attend school every day.

If your child is absent from the school environment on any school day, I am requesting that all parents/guardians follow the suggested guidelines to report any student absence to their classroom teacher or to the school administration office.

Parents/guardians are requested to inform the school of their child’s absence by; phoning or sending a text message to the school administration office, sending a note through to the classroom teacher or the administration team or by sending an email through to the school principal at the.principal@baupless.eq.edu.au . Office phone number is 4129 2243. school mobile number is 0491 226 052

Australian Veterinary Association School Visit - Wednesday 24 August, 2016

Representatives from the Australian Veterinary Association will be visiting Bauple State School between 9:30 a.m. and 11:00 a.m. on Wednesday 24 August, 2016. All classes will have the opportunity to listen to our guests speak about: responsible pet ownership, animal pet care and caring for animals in our environment.

‘Principal’s Award’ and ‘Student of the Week Award’ recipients

The Principal’s Award has been awarded this week to Taleah in Year 6. Taleah has been exhibiting enthusiasm towards her academic development in all subject areas.
Taleah is working towards achieving success in her personal goals in her reading and comprehension skills development. She is applying great effort in all classroom lessons and is taking great pride in her presented work. Taleah is a friendly student who works well with her peers and classroom teachers and I’m impressed with her ‘Only Our Best’ attitude towards learning activities.

I would like to congratulate all of the ‘Student of the week’ award recipients for the effort they have put into their school based activities.

**P & C Association Movie Night – Friday 12 August, 2016**

Students enjoyed watching the movie and eating the delicious dinner items that were prepared by our fantastic P & C Association members. Thank you to all school community members for making the ‘Movie Night’ such an enjoyable time for all involved.

**Tiaro Arts Festival – Saturday 13 August, 2016**

Artworks from all students (Prep – Year 6) at Bauple State School were displayed as a part of the 2016 Tiaro Arts Festival. It was a great opportunity for our school students to showcase their outstanding work to residents and guests in our local region.

I would like to thank the students and staff members that worked well in ensuring the Bauple State School display was of the highest standard.

**Auskick (Australian Rules Football) Program at Bauple State School in Term 3**

Participating students from Bauple State School will continue their involvement in the ‘Auskick’ Australian Rules Football program on Thursday morning (18 August, 2016). The first three Auskick sessions have been well attended and the students have provided school staff with positive feedback regarding the exciting activities offered and the encouragement received from the Auskick program facilitators.

Congratulations to Star who was awarded the Week 3 ‘Champion Auskick Participant’ certificate for working well with her teammates to complete skills development activities.

The Auskick program will continue to run over a 7-week period (28.07.2016 – 08.09.2016)

**Bauple State School – P & C Association**

The next Bauple State School P & C Association Meeting will be held on **Tuesday 23 August, 2016.** The P & C Association is an integral part of our school community and we encourage all community members to attend the meetings to contribute their ideas and thoughts.

**Tuckshop Volunteers Required**

The school tuckshop offers a fantastic service for our school students to enjoy every Wednesday. The students thoroughly enjoy ordering their lunches and enjoy the range of delicious menu items offered. The school tuckshop is a volunteer service organised by members of the Bauple State School P and C Association and school community volunteers.

Hailie Manderson does an amazing job as the volunteer coordinator of the school tuckshop. It would be greatly appreciated...
if any interested school community volunteers could contact Hailie or members of the school administration team to offer their assistance (cooking or serving) with the operations of the school tuckshop.

Will Snedden,
Principal

In The Classroom

P/1/2/3 NEWS

Students created some interesting and entertaining poems last week. They are working on illustrations for their work and then will share and recite the poems with the class. We are then moving on to refine our narrative retelling skills and creating characters for familiar stories. During math time, students have continued consolidating their understanding of shape, time and graphing. Year 2/3 students have been building speed with multiplication facts while the Prep/1 students are developing confidence with addition and subtraction facts. In History time we have been comparing past and present objects and considering how things have changed over the years. Talk to your child about some of the things that are the same and different to when you were their age.

It has been great to see more completed Premier's Reading Challenge pages arrive in our classroom. Thanks to parents for supporting your child and assisting them complete their 20 book page. You still have a little while to complete the challenge so keep reading everyday!

Please remember LIBRARY is TUESDAY. It is disappointing to have so few students regularly borrow. Our library is very well resourced with a whole range of brand new books waiting to be read. Mark it on your calendar and put a reminder on your fridge and phone. We hope to see more students prepared for next Tuesday.

Enjoy the remainder of your week!

Jess Chin

3/4/5/6 NEWS

Students have been excited to share the achievements of athletes competing at the 2016 Rio De Janeiro Olympic Games competition. Michael Phelps (United State of America – Swimming) and Usain Bolt (Jamaica – Athletics) continue to amaze global audiences with their outstanding sporting achievements. In class we have been discussing these successes and those of other competing athletes. Students have been discussing the need for determination, effort, work ethic and motivation when high achieving humans set goals and work hard to achieve success in meeting their targets.

Students will be ready to send their letters of support to members of the Australian Paralympic Team by the end of week 8. Students have each selected a competing Australian Paralympian at the 2016 Rio De Janeiro Paralympic Games and are writing a letter of support and encouragement to their selected athlete. I am very pleased with the letters that have been written to date and look forward to sending off the letters from our students prior to the beginning of the sporting competition.

Year 3/4 students are consolidating their knowledge of digital and analogue time during classroom lessons. Year 5/6 students continue to learn about fractions, decimals and percentages. Students have displayed high levels of knowledge of calculating percentages of numbers using their mental computation skills. Parents/carers are encouraged to discuss these concepts with their child/ren and share any knowledge they have on these topics. Mathematics skills covered in class by students at this age will form the foundation of their knowledge base for their future years.

Science lessons for the Year 3/4 students have been focused on natural and processed materials that we use in our everyday lives. Students have discovered the importance of accessing these resources and environmentally responsible practices when using these resources to ensure their sustainability for future generations. Year 5/6 students have been learning about weather patterns and the impact that natural disasters can have on local and global communities.

It was pleasing to see the majority of home learning books handed in by students last week. Parents/carers are kindly reminded to ensure their child/ren are completing their set home learning tasks on a daily basis and submitting the competed home learning activities each week (Friday morning).
